SENSORS

Ground sensor **ETOG-56T**

Integrated humidity and temperature sensor for heating control systems of driveways, stairs and sidewalks. Works with the TF-M1 and TF-M2 thermoregulator. Installation: in the ground. Housing tightness: IP 68. Dimensions: height 32; Ø 60 mm. Measurement: humidity and temperature. 6-wire cable, length 25m.

EAN: 5703502660356
SKU: ETOG-56

Mounting sleeve **ETOK**

Mounting sleeve for the ETOG temperature and humidity sensor. It is a durable housing that facilitates the installation of the sensor. It is intended for installation in the ground outside the house, in systems protecting driveways, sidewalks and stairs against ice and snow.

EAN: 5703502660363
SKU: ETOK-1

Gutter humidity sensor **ETOR-55**

The ETOR-55 humidity sensor is intended for direct installation in gutters, on roofs, in drainage channels, downpipes, etc. The factory length of the power cable is 10 m. This cable can be extended to 200m. The sensor works with the TF-M1 and TF-M2 thermoregulator.

EAN: 5703502660271
SKU: ETOR-55-US224

External sensor **ETF**

The ETF temperature sensor is used to read air temperature, it has a hermetic housing with IP 67 tightness class. The sensor should be located on the north side of the building. Works with the ETOR humidity sensor and TF-M1, TF-M2 thermoregulators. The length of the sensor power cable cannot exceed 50m.
